MÉTALLURGIE EXTRACTIVE QUÉBEC

800 rue Alain, apt. 504, Quebec City, Canada G1X 4E7

A non-profit publisher devoted to the diffusion of extractive metallurgy literature.

Registered in Quebec City under number 2240676462

President

Fathi Habashi, Professor Emeritus, Department of Mining, Metallurgical, and Materials Engineering, Laval University, Quebec City, Canada G1V 0A6, Tel. [418] 651 - 5774, E-mail: Fathi.Habashi@arul.ulaval.ca

Just published

A Metallurgist on the Move is a diary of the trips the author has undertaken during his professional career. He visited many industries, universities, research centers, and museums, and participated in many conferences. The book in about 5000 pages therefore reflects the state of extractive metallurgy since he left his home country Egypt and went to study in Vienna then emigrated to Canada.

ISBN 978-2-922686-21-0, \$ 1500 + postage

Volume 1- Egypt, published in 2014, 590 pages includes Preface in 75 pages.

Part 1: Historical introduction, 210 pages

Part 2: Living in Egypt, 210 pages

Part 3: Visits to Egypt and the Future of Egypt, 51 pages

Volume 2- Canada, published in 2014, 498 pages, includes a historical introduction in 42 pages

Volume 3- USA, published in 2014, 315 pages, includes a historical introduction in 32 pages

Volume 4- Latin America, published in 2014, 680 pages, includes a historical introduction in 24 pages

Volume 5 - Asia: Part 1- Afghanistan to Indonesia, 600 pages, published 2015.

Volume 5 - Asia: Part 2- Iran to Vietnam, 577 pages + indexes, published 2015.

Volume 6 - Europe: Part 1- Albania to Germany, 844 pages, published in 2015.

Volume 6 - Europe: Part 2- Gibraltar to Vatican, 789 pages + indexes, published in 2015

Volume 7 - Russia and Other Countries, published 2015, xxx pages, includes appendices: 1- Interviews, 2- Books by the author, 3- Publications by the author

Metallurgic Chymistry. A facsimile English edition of Gellert's Metallurgic Chymistry. First published in German in 1751, with an introduction by Fathi Habashi. ISBN 2-980-3247-3-6, 500 pages. 1998. Can \$ 60 + postage

Schools of Mines. **The Beginnings of Mining and Metallurgical Education** by Fathi Habashi. More than 600 pages illustrated with 350 figures and maps of which 73 are in color, includes the history of 92 schools, over 400 biographies, over 100 selected references and 27 pages of indexes. Published 2003. Can \$ 80 + postage

From Alchemy to Atomic Bombs by Fathi Habashi. The book is in 365 pages with 220 illustrations, 30 of them in color. ISBN 2-922-686-00-0. Published 2002. Can \$ 70 + postage

Chemistry and Metallurgy in the Great Empires by Fathi Habashi. The book in 272 pages, 21.5 × 28 cm, hard cover, fully illustrated in colour, is suitable for the general reader as well as metallurgical engineers, chemists, and students. ISBN 978-2-922686-03-6. Published 2009. \$ 70 +postage

A History of Metallurgy A collection of articles on the history of extractive metallurgy originally published in *History of Technology* between 1954 and 1958 and edited by Fathi Habashi. 330 pages, 123 Figures. ISBN 2-980-3247-1-X. Can \$ 35 + postage

The Story of Metals. Discovery, Recovery, and Uses, two volumes by Fathi Habashi, 1061 pages, 15 x 23 cm, soft cover. Metals are not arranged according the Periodic Table or alphabetically but are arranged according to their discovery. There are two introductory chapters on metals and their history. The book is illustrated by many Figures mostly in color, biographies of many chemists and metallurgists, and many flowsheets of processes. ISBN 2-922686-01-9, \$ 90. 2015. *Available only in electronic form.*

Readings in Historical Metallurgy. Volume 1 by Fathi Habashi. The book is in 775 pages, illustrated by 490 Figures many of them in color, contains over 165 biographical notes of the scientists and engineers who contributed to this endeavour. ISBN 2-922686-02-7. Published March 2006. Can \$ 95 + postage

Mining and Metallurgy on Postage Stamps by: Fathi Habashi, David Hendricker, and Claude Gignac. ISBN 2-980-3247-4-4, 320 pages, Published 1999. Can \$ 200 + postage

Postage Stamps. Metallurgy, Art, History by Fathi Habashi. ISBN 2-922686-10-8, 125 pages. Published February 2008, Can \$ 30 + postage

Extractive Metallurgy Today: Progress and Problems by Fathi Habashi. 325 pages illustrated by 162 pictures of which 75 are in color. Published April 2000. ISBN: 2-9803247-8-7. Can \$ 40 + postage

Researches on Copper. History & Metallurgy by Fathi Habashi. The present volume is a collection of selected papers dealing with the extractive metallurgy of copper published by the author and his coworkers plus ten new chapters specially written. The book is fully illustrated by many coloured pictures, flowsheets, and diagrams - - should be useful for students, engineers, chemists, geologists, and for research workers. ISBN 2-922686-14-2, 410 pages 8½"× 11". Published in 2009. **\$ 50 + postage**

Extractive Metallurgy of Copper, by Fathi Habashi. ISBN 978-2-922686-19-7, **415 pages 6" x 9"**. Published in 2012. The book included the chemistry of copper, its history, ores, beneficiation, pyrometallurgy, hydrometallurgy, electrometallurgy, and kinetics of leaching copper minerals. \$ 40 + postage

Gold. History, Metallurgy, Culture by Fathi Habashi. ISBN 978-2-922686-13-5, 277 pages 8½" × 11". Published in 2009. This collection of articles gives a rapid and fully illustrated review of the history and extractive metallurgy of gold. **\$ 60 + postage**

Science, Technology, and Society by Fathi Habashi. this vast and complex question is discussed from five points:

1. Social responsibility of scientists
2. Migration and movement of scholars
3. Philanthropy and its role in education and culture
4. Enlightened despots and their influence on science and culture
5. Social aspects of mining

The book is meant for the general reader but can benefit scientists as well. Pictures have an important role to convey a message and for this reason some time was spent in selecting them from a variety of sources. 316 pages, fully illustrated mostly in colour. ISBN 978-2-922686-01-2. Published 2009. **\$ 30 + postage**

Ida Noddack (1896-1978). Personal Recollections by Fathi Habashi. The book is illustrated with numerous photographs, many of them in colour and contains facsimile of 12 letters and 4 historical papers by Ida Noddack. ISBN 2-922686-08-6. Published February 2005. **Can \$35 + postage**

70 Years Old. Department of Mining, Metallurgical, and Materials Engineering, Université Laval, 1938–2008 by Fathi Habashi. ISBN 978-2-922686-11-1. Down load free of charge at http://works.bepress.com/fathi_habashi/ , \$ 15 + postage

The Copts of Egypt. The history of the Copts is briefly told by Fathi Habashi in 92 pages, fully illustrated by coloured pictures. Published 2006, ISBN 2-922686-09-4. **Can \$ 10 + postage**

Aqua Science Through the Ages. An Illustrated History of Water by Fathi Habashi. Published 2009. ISBN 978-2-922686-06-7, 166 pages fully illustrated by coloured pictures, **Can \$ 35 + postage**

Mining and Civilization. An Illustrated History by Fathi Habashi. Published 2010. ISBN 978-2-922686-16-6. Fully illustrated in color, 510 pages, published August 2010, covers history of mining and quarrying in relation to world civilization. **Can \$ 80 + postage**

Metallurgical Chemistry by Fathi Habashi. An audio course for students and engineers in 5 hours, published by the American Chemical Society, composed of a 265 page reference manual and a CD. **Can \$ 95 + postage**

Metals from Ores: An Introduction to Extractive Metallurgy by Fathi Habashi. In 475 pages incorporating 215 illustrations (50 in color) and numerous Tables. ISBN 2-922686-04-3. Published August 2003. **Can \$ 40 + postage**

Textbook of Pyrometallurgy by Fathi Habashi. 615 pages. ISBN 2-922686-05-1. Published August 2002. 615 pages. **Can \$ 40 +postage.**

Textbook of Hydrometallurgy, by Fathi Habashi. The book covers the general principles of solution chemistry, engineering aspects, and detailed studies of hydrometallurgical processes in 700 pages fully illustrated with drawings and photographs. ISBN 2-980-3247-0-1. 1999. **Out of print**

Textbook of Hydrometallurgy, 2nd edition by Fathi Habashi. The book covers the general principles of solution chemistry, engineering aspects, and detailed studies of hydrometallurgical processes in 750 pages fully illustrated with drawings and photographs. ISBN 2-980-3247-7-9. 1999. **Can \$40 + postage.**

Principles of Extractive Metallurgy, volume 1 - General Principles, by Fathi Habashi, published by Gordon & Breach Science Publishers, New York 1969. **Out of print**

Principles of Extractive Metallurgy, volume 2 - Hydrometallurgy, by Fathi Habashi, published by Gordon & Breach Science Publishers, New York 1970. **Out of print**

Principles of Extractive Metallurgy, volume 3 - Pyrometallurgy, by Fathi Habashi, published by Gordon & Breach Science Publishers, New York 1987. **Out of print**

Principles of Extractive Metallurgy, vol. 4 - Amalgam & Electrometallurgy by Fathi Habashi. 380 pages. ISBN 2-980 980-32473247-5-2. Published 1998. **Can \$ 80 + postage**

Kinetics of Metallurgical Processes by Fathi Habashi. The book covers the general principles of heterogeneous non-catalyzed reactions which are the basis of extractive metallurgy. ISBN: 2-980-3247-6-0, 376 pages. September 1999. **Can \$40 + postage**

Pollution Problems in the Mineral and Metallurgical Industries by Fathi Habashi. ISBN 2-980-3247-2-8, published 1996. 147 pages. The book outlines the problems faced in the industry and how they were solved. \$ 25 + postage,

Mineral Processing for Nano-Scientists, by Fathi Habashi, ISBN 978-2-922686-18-0. Published August 2011. The book explains what is a metal, a nonmetal, and a metalloid, and summarises the processes is use for extracting metals from their ores. \$ 20 + Postage

Alloys: Preparation, Properties, Application edited by Fathi Habashi. 314 pages, ISBN 3-527-29591-7. Published 1998 by WILEY-VCH. Now available from Métallurgie Extractive Québec. **Can \$ 30 + postage**

Aluminum. History & Metallurgy by Fathi Habashi. 160 pages, ISBN 2-922686-12-4. Published 2008, is a collection of some papers published by the author during the period 1993–2008. They include: The Pioneers, Metallurgy, and Selected Topics. The collection gives a rapid and fully illustrated review of the history and extractive metallurgy of aluminum. \$ 40 + postage

Researches on Rare Earths. History & Technology by Fathi Habashi. A selected collection of papers by the author and his co-workers to which an outline on the recovery of rare earths from different sources has been specially written. The position of rare earths in the Periodic Table is also discussed. ISBN 978-2-922686-15-9, published 2008, 125 pages, fully illustrated, \$25 + postage

The Future of Extractive Metallurgy by Fathi Habashi. Published by CETEM in Rio de Janeiro, Brazil.

Chalcopirite. Its Chemistry and Metallurgy by Fathi Habashi, 177 pages. ISBN 0-07-025-383-8. McGraw-Hill International Book Company, 1978. Now available for \$ 40 + postage from Métallurgie Extractive Québec

Pyrite. History, Chemistry, and Metallurgy by Fathi Habashi, 115 pages. ISBN 978-2-922686-20-3. \$ 20 + postage

Researches on Asbestos, by Fathi Habashi, ISBN 978-2-922686-17-3, 110 pages. Published 2011. The book contains articles on the history and structure of asbestos, surface modification of its surface by organic dyes, and the toxicity issue. \$ 20 + postage

Chemical Technology of Ore Processing by Vladco Panayotov, Fathi Habashi, and Marinela Panayotova in 218 pages, 20.5 x 28.5 cm, hard cover, is a combined effort of authors from different countries with different background. Published 2015 by St. Ivan Rilski Publishing House, University of Mining & Geology, Prof. Boyan Kamenov Street, Sofia 1700, Bulgaria. ISBN 978-954-353-259-9. The book is in 8 chapters:

1. Introduction
2. Energy Basis of Flotation
3. Pyrometallurgy
4. Basics of Minerals Dissolution and Leaching
5. Hydrometallurgy
6. Electrometallurgy
7. Application of Methods of Extractive Metallurgy to Different Ores

Environment Pollution Problems in the Mineral Processing Industry

The Recovery of Elemental Sulfur from Sulfide Ores by Fathi Habashi. Bulletin No. 51 Montana Bureau of Mines and Geology, Butte, Montana (1966). Now available for \$ 10 + postage from Métallurgie Extractive Québec

Kinetics and Mechanisms of Gold and Silver Dissolution in Cyanide Solution by Fathi Habashi. Montana Bureau of Mines & Geology, Butte, Montana, *Bulletin* 59 (1967). Now available for \$ 10 + postage from Métallurgie Extractive Québec

Uranium in Phosphate Rock. Montana Bureau of Mines & Geology, Butte, Montana, Special Publication 52 (1970). Contains translation from German of a paper, “Mechanism of Extraction of Uranium from Phosphate Rock”, and other papers by Fathi Habashi. Now available for \$ 10 + postage from Métallurgie Extractive Québec

International Symposium. Problems of Complex Ores Utilization, edited by Fathi Habashi, Ilya N. Beloglazov, and Arnold A Galnbek. Published by Gordon & Breach. Now available from Métallurgie Extractive Québec for \$ 40 + Postage

PROCEEDINGS 9th International Symposium Cultural Heritage Geosciences, Archaeology, Mining, and Metallurgy. Quebec City September 2 - 7, 2007. Edited by Réginald Auger, Laurier Turgeon, and Fathi Habashi. ISBN 978-2-923663-02-9. Published by Centre d'étude sur les lettres, les arts, et les traditions [CELAT], Université Laval. Available for \$ 10 + postage from Métallurgie Extractive Québec

Progress in Extractive Metallurgy. Volume 1, edited by Fathi Habashi. Published by Gordon & Breach, New York 1973, 239 pages. Now available from Métallurgie Extractive Québec for \$ 40.

Mineral Resources of the Arab Countries by Fathi Habashi and Fouad Bassyouni. Chemecon Publishing Limited, London, 1982. First edition published by Faculté des sciences sociales, Université Laval 1979, 100 pages. Now available from Métallurgie Extractive Québec
\$ 50 + shipping

Periodic Table of the Elements 24x36 inches Poster includes atomic weights, atomic numbers, atomic volume, electronic configuration, lanthanide contraction, density, melting points, diagonal similarities, Table showing metals, nonmetals, and metalloids, and Mendeleev. \$ 50 + shipping

T-shirt Periodic Table. Small, medium, large, \$ 25

Available from WILEY-VCH

Weinheim, Germany

Handbook of Extractive Metallurgy,
edited by Fathi Habashi, Published 1997, 2379 pages, ISBN 3-527-28792-2

John Wiley & Sons, Inc.
605 Third Avenue • New York, NY 10158-0012

Volume 1, 491 pages

- The Metals Industry
- The Economic
- Classification of Metals
- Metals Production
- Recycling of Metals
- Ferrous Metals: Iron, Steel, Ferroalloys

Volume 2, 692 pages

- Primary Metals: Copper, Lead, Zinc, Tin, Nickel
- Secondary Metals: Arsenic, Antimony, Bismuth, Cadmium, Mercury
- Cobalt Light Metals: Beryllium, Magnesium, Aluminum, Titanium

Volume 3, 578 pages

- Precious Metals: Gold, Silver, Platinum Group Metals
- Refractory Metals: Tungsten, Molybdenum, Niobium, Tantalum, Zirconium, Hafnium, Vanadium, Rhenium
- Scattered Metals: Germanium, Gallium, Indium, Thallium, Selenium, Tellurium
- Radioactive Metals: General, Uranium, Thorium, Plutonium
- Rare Earth Metals: General, Cerium

Volume 4, 665 pages

- Ferroalloy Metals: Chromium, Manganese, Silicon, Boron
- Alkali Metals: Lithium, Sodium, Potassium, Rubidium, Cesium, Alkali Sulphur Compounds
- Alkaline Earth Metals: Calcium, Strontium, Barium
